

Spinning top

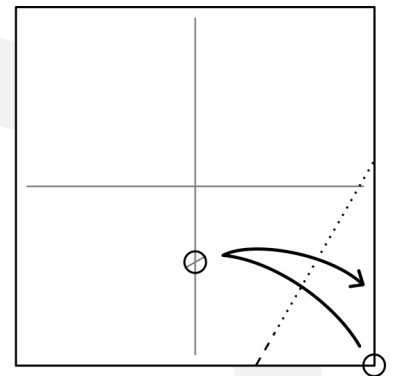

Original creator : Manpei Arai (?)
 Diagram : Stéphane Gérard (11/2014-08/2015)
 Recommended size : 15x15 cm (6x6 inches)
 Duo paper

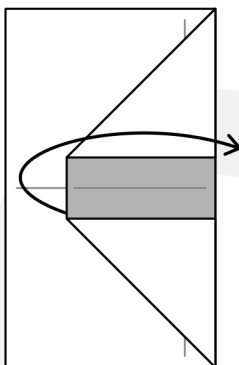

1. The handle will be white.

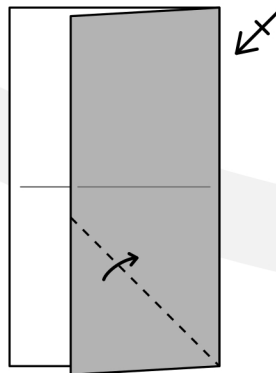

2.

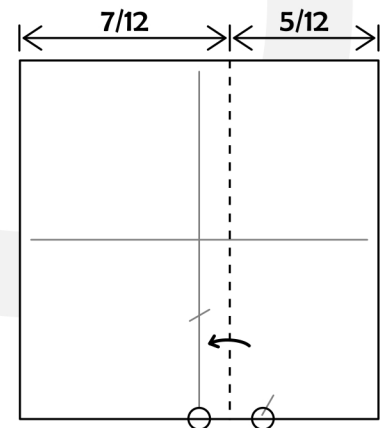

3. Pinch.

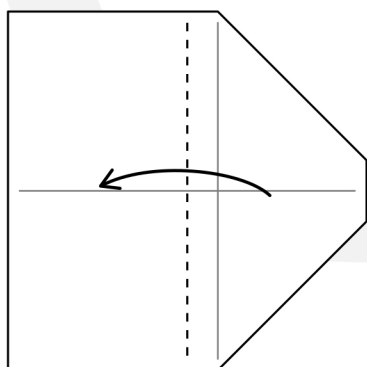

6.

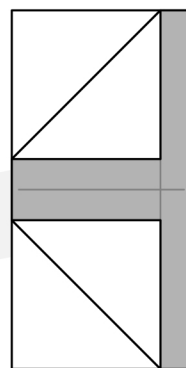

5.

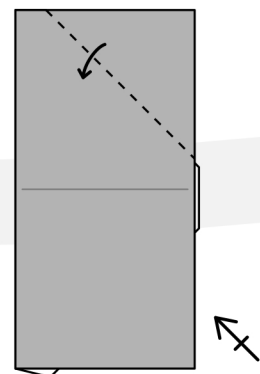

4.

7. Fold in half.

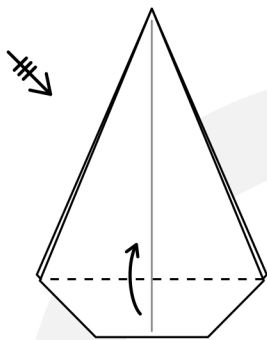

8.

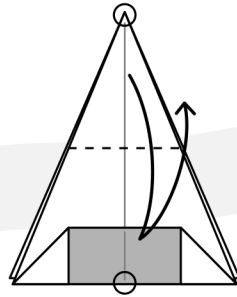

9. Use the edge behind as a guide.

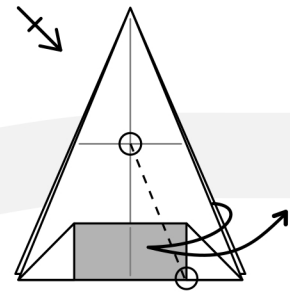

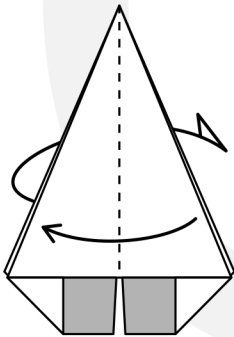

16.

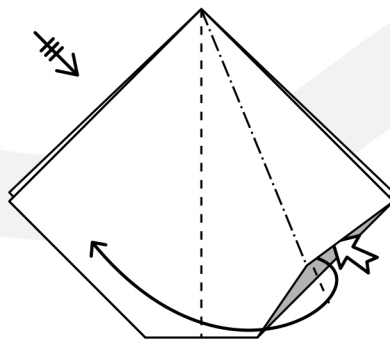

17. Fold through all layers then unfold.

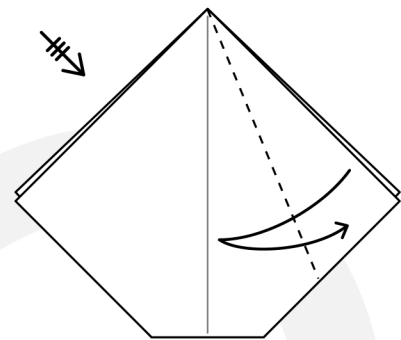

18. Crease (one layer only). Repeat behind.

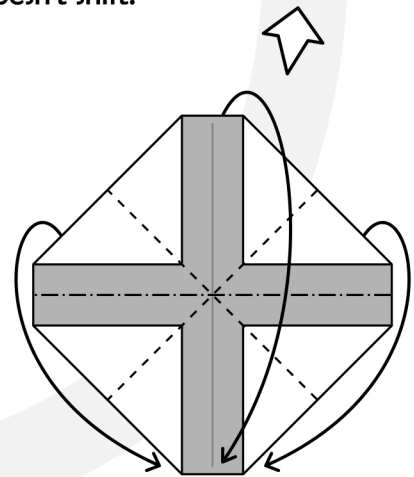

15. Fold one flap to the left. Repeat behind.

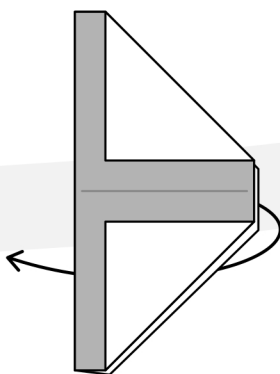

14. Squash fold.

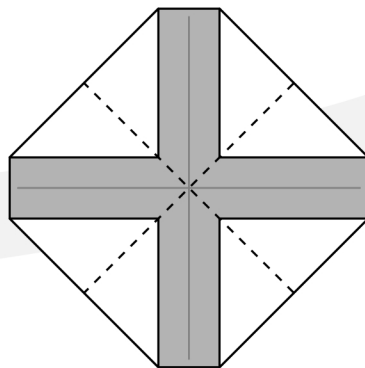

13. Crease. Be careful that the paper inside the model doesn't shift.

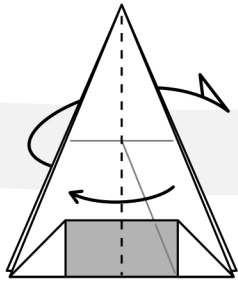

12. Fold like a preliminary base.

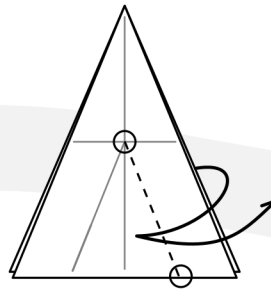

10. Fold the rear flap back.

11. Add valley folds.

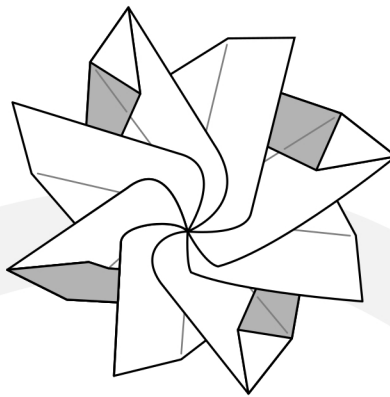

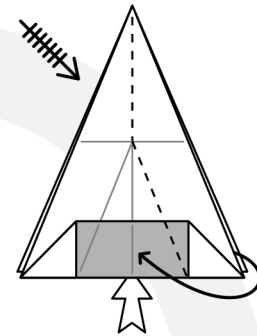

19. Fold one flap to the left. Repeat behind.

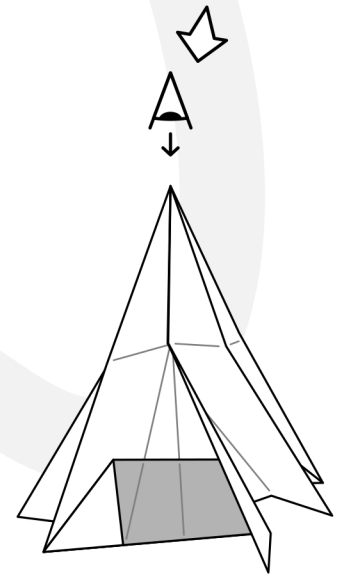

20. Repeat 17-18 three times.

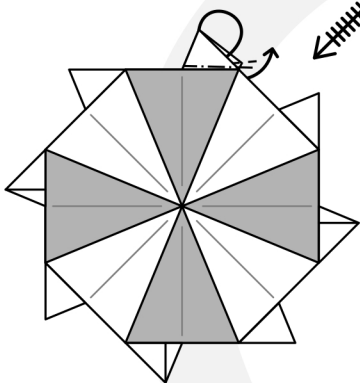

21. Start distributing the flaps. The model will be 3D.

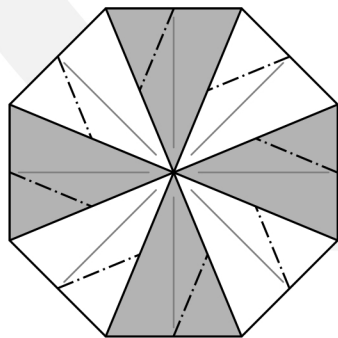

23. Twist the flaps clockwise, while holding the spinning-top in the palm of your hand.

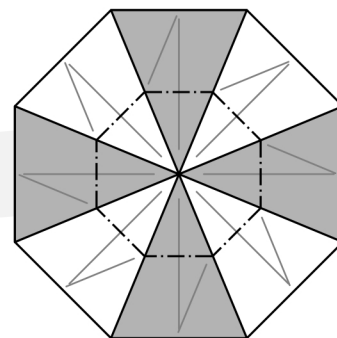

22. In progress. Next view will be from the top. Take a peek at step 29' to see how the handle should look like.

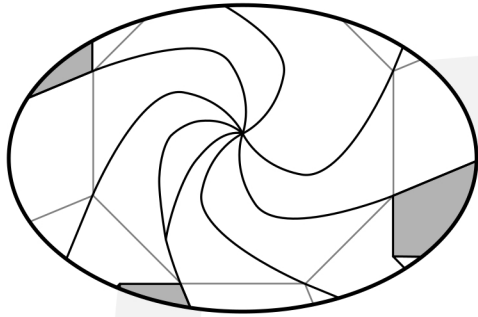

24. Inside reverse-folds.

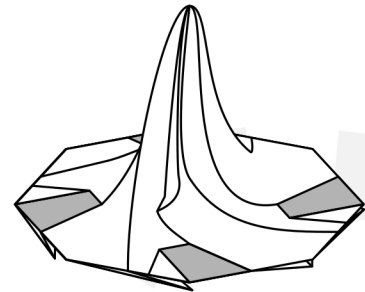

25. Precrease. Use the edges behind as guides.

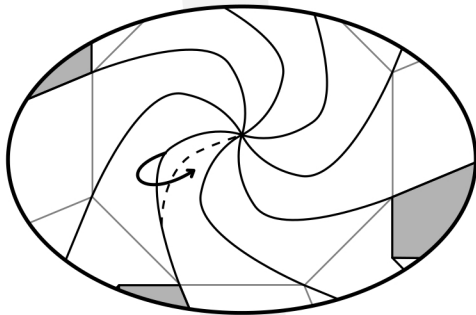

26. Precrease.

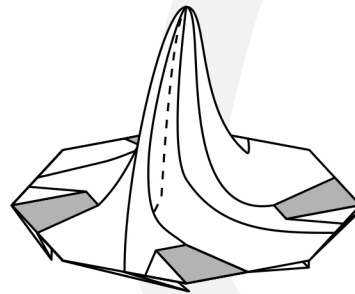

31. Like this. Approximately. Repeat seven times on the remaining flaps. This will thin and lock the handle.

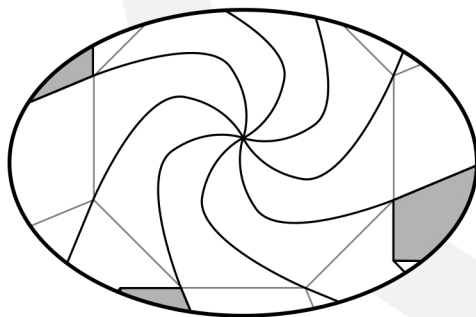

31'

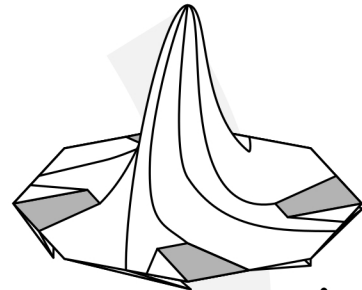

30. Fold a flap over. There is no reference here.

30'

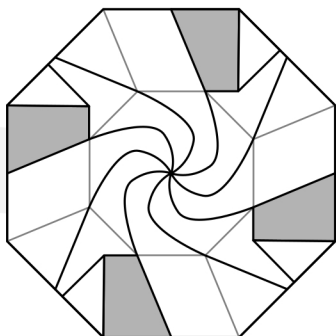

29.

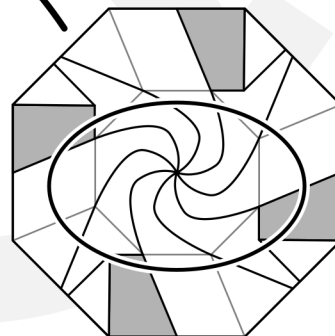

29'

View from the top

View from the side

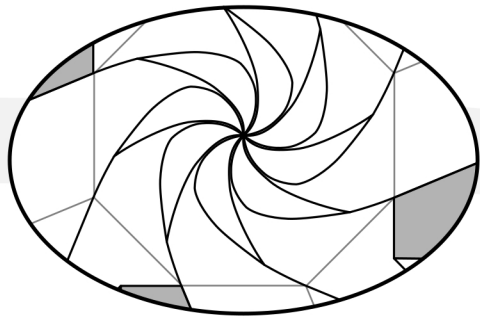

27.

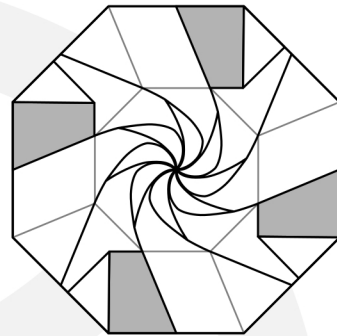

28. Zoom in.

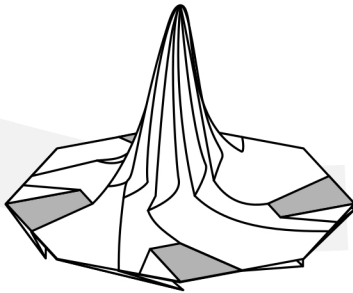

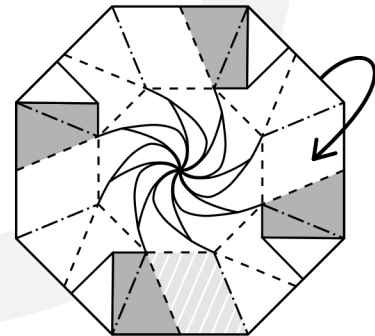

32. Zoom out.

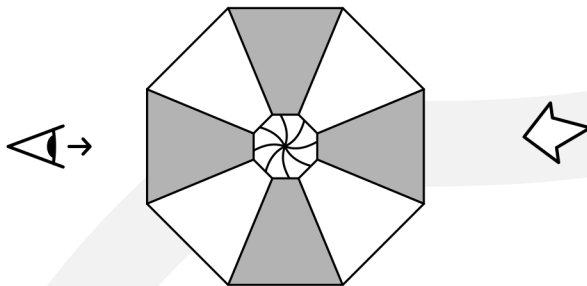

33. View from top.

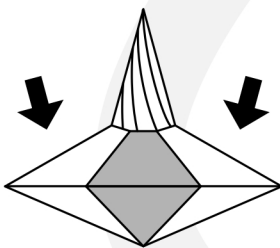

32'.

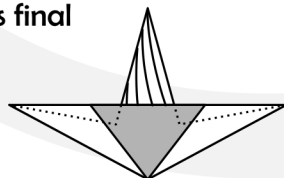

34. Fold up and interlock the border. Rhombi will tile one on another, and circle around the handle.

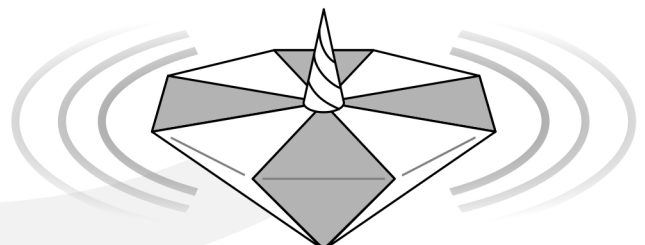

35. Almost there. Next step will be seen from the side.

36. Push gently on the side to give the spinning-top its final shape.

37. Like this. Continue thinning the handle by twisting it and...

Spin it !
